Cleaning and Care

To keep clean, use a soft cloth with warm, soapy water, or a non-abrasive bathroom cleaner, to wipe the basin.

Avoid keeping hot appliances, such as hair straighteners, in contact with the surface of the basin. Doing so may cause discolouration and leave scorch marks.

If hair dye, aftershave, nail polish (or remover), aerosol spray, or other harsh chemicals spill onto the surface, wipe them up right away with mild soapy water and a clean cloth to avoid surface damage and staining.

Warranty
